Experience

AI & Computational Thinking Intern, MATLAB | June 2025 **JUNE 2025-JUNE 2025**

• Completed a 4-week program in supervised learning and optimization.
• Improved model performance through experimentation and hyperparameter tuning.

Project Intern, FabLab **May 2024-MAY 2024**

• Built an interactive robotic pet using Arduino, integrating ultrasonic sensors and servo motors for obstacle detection.
• Designed 3D-printed components reducing cost by 30%, and performed circuit debugging, testing, and optimization.

Achievements

- Secured **1st Prize** at **TinkerHack 4.0** at SOE, CUSAT,2026 and **Top 300 Maker** in **2000+** projects**.**
- Secured 3rd Price at **Hackeuropa,SOE,CUSAT,2026.**
- Ranked among the **Top 10 Finalists** out of 99 teams at **TechSprint (GDG – SOE, CUSAT)**,2026.

Projects

AI Accessibility Platform with Sign Language Recognition GitHub

• Built an AI-based accessibility system using Gemini AI, MediaPipe, and Web Speech API.
• Enabled real-time sign language recognition using computer vision and ML models.
• Improved usability with OpenDyslexic font, contrast modes, and Focus Line reading**.**

Smart Finance & Budget Tracker GitHub

• Built a full-stack finance app using Flutter and Firebase for real-time budget tracking and expense sharing.
• Automated transaction tracking by parsing SMS and app notifications, reducing manual data entry.
• Implemented secure authentication and alerts for budget limits and unusual spending patterns.

Certifications

- **NPTEL Elite – Artificial Intelligence: Concepts and Techniques (82%)** Jul–Oct 2025

Education

Cochin University of Science and Technology (CUSAT) 2023-2027
Bachelor of Technology in Information Technology
CGPA: 8.6/10

Indian Institute of Technology Madras 2023 – 2027
Diploma in Programming – BS in Data Science (Online Program)
CGPA: 6.13/10

Skills

Programming: Python, C++
Artificial Intelligence: YOLO, OpenCV, DeepFace, Regression Modeling, Feature Engineering, Object Detection
Web Technologies: HTML, CSS,JavaScript,React
Tools: Git, GitHub, Jupyter Notebook, Arduino
